Local Gazetteers (difangzhi 地方志) have long been important sources for studying China's local history providing information on landscape, flora and fauna, local products, temples and schools, officials and celebrities, local culture and customs, and much more. The Local Gazetteers Project at MPIWG provides a set of digital tools that help historians to open up this rich for new forms of digital large scaled analysis and comparative studies.

In this workshop nine scholars inquire into the historical reception and construction of local materiality asking questions from the viewpoint of science, technology, medicine, and environmental history, focusing on topics of sericulture, wood and forestry, watery landscape, diseases, materia medica, and religious sites. Working on their individual research projects, they will probe the digital tools provided at MPIWG to collect and analyze data across the local gazetteers. The tools include a data extraction interface, a GIS mapping service to visualize data on historical maps, and a scholarly enhanced data repository to share and integrate individually collected data.

Organizers

Shih-Pei Chen, Dagmar Schäfer Department III Artefacts, Action, and Knowledge

Venue

Room 265 (Department III Conference Room) Max Planck Institute for the History of Science, Boltzmannstraße 22, 14195 Berlin

15:00-15:30 Coffee Break

15:30-15:45 Database of Chinese Buddhist Reconstruction, 1866-1966 By Gregory Adam Scott

15:45-16:00 Buddhist data index in local gazetteers By Hongsu Wang

16:00-16:15 Materia Medica as Local Product in Ming-Qing Gazetteers By He Bian

16:15-17:00 Wrap-up and Q&A By Shih-Pei Chen

Tuesday

10:00-12:30 Hands-on workshop: Introduction to the LG digital tools (LGService), TOC editor, full-text search, visualization and mapping (Coffee break in-between)

Afternoon: Free meeting and try out things that have learned

Wednesday

10:00-12:30 Hands-on workshop: Data extraction, mapping, and publication (Coffee break in-between)

Afternoon: Free meeting and try out things that have learned

Thursday

10:00-12:30 Hands-on workshop: Data extraction, mapping, and publication (Coffee break in-between)

Afternoon: Free meeting and try out things that have learned

Week Two (08-12 Aug 2016)

Monday

10:00-12:30 Group meeting (Coffee break in-between)

14:30-17:00 Guided tour at the Berlin State Library

Tuesday-Friday

10:00-16:00 Drop-in Q&A sessions with Shih-Pei Chen and Zoe Hong (Coffee break inbetween)

Week Three (15-19 Aug 2016)

Monday-Thursday

10:00-16:00 Drop-in Q&A sessions (Coffee break inbetween)

Friday (open to the public, registration please see event page)

10:00-17:00 Final Presentation (see event page for program) (Coffee break in-between)

19:00 Joint Dinner
